Child labour is work that deprives children of their childhood, their potential and their dignity, and that is harmful to physical and mental development. It is mentally, physically, socially or morally dangerous and harmful to children and interferes with their schooling¹.

Dataflex International B.V. and all of her subsidiaries (hereafter called 'Dataflex') have a zero tolerance approach to child labour. Dataflex is committed to ensuring there is openness and transparency in its own business and in its approach to tackling child labour throughout its supply chain.

Dataflex cooperates with its business partners to understand all potential risks and to ensure steps are taken and maintained to prevent the use of child labour in the entire supply chain.
